

I do not want to see LPFM take priority over current FM translators. KLOVE is a very important station in Cheyenne in that it gives people, especially teen-aged youth an alternative to the local station that fill the airwaves with a lot of trashy music. Recently we had a concert in Cheyenne of the type of music carried by KLOVE and it was well attended by area youth.

Myself, husband and sons (15 & 17) listen almost exclusively to KLOVE because of the uplifting message and music. I don't have to change the station due to the sexual or violent content of the music.

I believe KLOVE is a vital alternative to the pop culture music of today and many teens are tuning in for the hope and values it offers.

I urge you not to jeopardize this station and the other like it.

Thank you
